COST-EFFECTIVE
DESKTOP PUBLISHING &
DESIGN SOLUTIONS

**WE KNOW
HOW**

TO TRANSLATE AND WORK WITH DOCUMENT LAYOUTS

InText has 20 years of experience in the language industry.

While working, we have developed optical character recognition (OCR) expertise to convert PDF files and prepare them for translation, desktop publishing skills to fine-tune the formatting afterwards, a graphic design department to create your own document style, and many other professional service offerings to simplify your work with document layouts.

Because layout matters

Document design

Lay out your document from scratch

Preparation for translation

Benefit from OCR and preparation
of files for CAT tools
Reduce translation costs

Localization

Localize your documents into
multiple languages with InText

Desktop publishing

Finalize your project and get
a document that's ready to publish
